3. **APPROVALS** – To view an approval workflow transaction, click on the check box next to the transaction and using the pull down arrow under the Actions section, a list of options will display. Approvals that are processed will be removed from the Approval listing.
   - View Details – Provides high level details of the workflow transaction.
   - More Info – Will launch the transaction screen (Requisition) and provide the user with the actual transaction record in MUNIS.
   - Accept – Will accept/approve the transaction for further processing.
• **Reject** – Will reject the transaction and also allow the approver to indicate rationale for the rejection and send an email to the requestor.
• **Forward** – Will forward the approval transaction to another approver.
• **Hold** – Will place the transaction on hold.

4. **NOTIFICATIONS** – Notifications are basically email notifications sent to the dashboard and provide the transaction detail behind the notification.

5. **NOTIFICATIONS** – Like Approvals, Notifications can be filtered by Notification Type by clicking on the Notifications pull down arrow.
6. **NOTIFICATIONS** – Notification options include viewing details specific to the notification or dismissing the notification transaction. These options are available by using the pull-down arrow under the Actions section. Notifications that are Dismissed are removed from the Notification listing.
