

## Why Embed Content?

Embedding content is like creating a window on your Teacher Webpage that visitors can view other web content through. You may want to embed content that you, your students, or others have posted to sites such as:

<http://www.Youtube.com/Education>

<http://Edu.Prezi.com/>

<http://Edu.Glogster.com/>

<http://Ed.TED.com/>

## Find and Copy Embed Code

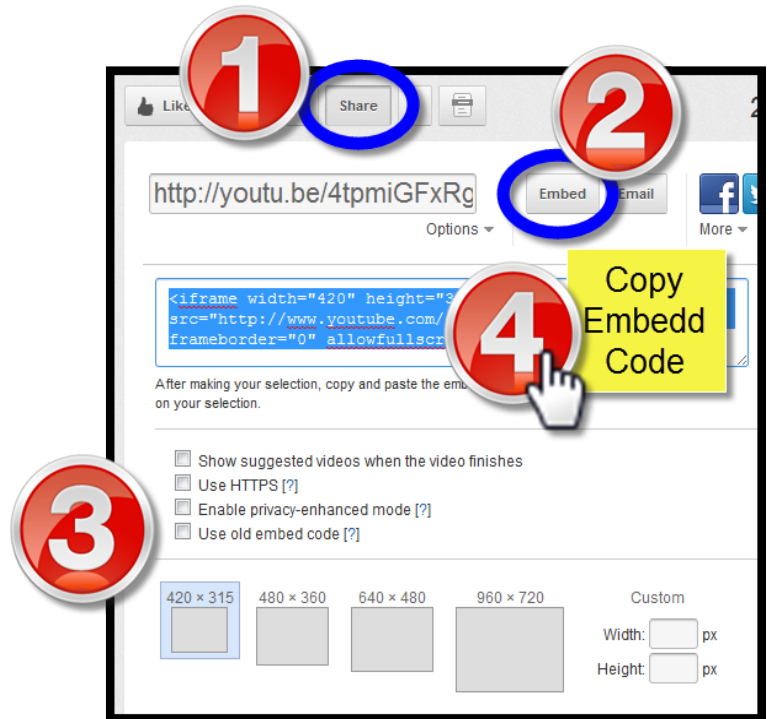

Great News! You don't have to know how to write in HTML code, in order to embed something. All you need to know how to do is *Right Click* to **Copy** and then *Right Click* to **Paste!**

**Begin by navigating to the content you'd like to embed:**

**For Example:**

- Open **Internet Explorer**
- Navigate to a **YouTube** Video you'd like to embed onto your Teacher webpage
- Adjust the **Size Setting** and **Copy** the embed code.

*See Image, Right*

## Paste Embed Code On Teacher Webpage

### Add Embeddable Content to Teacher Webpage:

1. Open a **new tab** (page) in Internet Explorer *See Image 2*
2. **Log In** to Edit your Teacher Web Page - <http://www.lcisd.org/en/Login.aspx>
3. Click **Modules > Blogs > Name of Your Blog > Create New Post**
4. Enter a title for your blog post
5. Enter any text you'd like to include in the post.
6. Place your cursor wherever you'd like your embedded content to appear.
7. Switch to **HTML Mode** *See bottom, left image*
8. **Paste** in the embed code
9. Switch back to **Design Mode** to confirm your embedded content appears in the place you'd like it to appear.
10. Click the **Create this Post** button at the bottom of the page.
