# Equation Editor

**What is it?**

The Equation Editor allows you to add Math symbols and equations to your flipchart page. Whether you are teaching students about simple fractions or complex functions, this is going to be your new favorite tool!

**Using the Equation Editor**

1. **Insert >> Equation**
2. **Click** where you would like the equation to appear on the page. The **Equation Editor** will open.
3. Each button across the top is a group of symbols. **Click on a group** and then **choose your symbol**.
4. **Fill in numbers** where they are needed in your equation.
5. **Click OK**.
6. Your math equation is an object. **Double-click to edit**.
7. **Resize using the Marquee Handles**.
