Grid Designer

What is it?

ActivInspire has a grid automatically built into each flipchart page. The grid can be an instructional tool and an organizational tool.

How do I edit the grid?

Right Click >> Grid Designer

1. Check **Visible** to show the grid. By default the grid is hidden.
2. Check **Allow snap** to align items automatically to the grid.
3. Click the + or - to change the size of the X and Y step.
4. Click **Color** to change the color of the grid lines.
5. Choose a **Line Style**.
6. Click **Close**.
