## Before beginning, check for and delete any existing profiles in your general settings.

**Step 1: Remove Profiles**

**Step 2: Access from iCafe**

Connect to the guest network, then visit [http://icafe.lcisd.org](http://icafe.lcisd.org) and select the iOS tab, “Enroll iOS Device”. A window will open. Enter your district credentials to get started.

**Step 3: Registering to Campus**

Use the drop-down option to answer all 3 questions and then select “Enroll”.

**Step 4: Enrolling Process**

Scroll to bottom of the next window and select “Enroll Now”.

Through the next 4 windows, follow the on-screen prompts:

1. Register
2. Install
3. Install
4. Done

**Step 5: Installing Profiles**

When the process is finished, you will see this screen.

It may take a minute or two for both profiles to load. If you scroll down in the General Settings, you will see profiles at the bottom. **Make sure two profiles are present before attempting the next steps.**

**Step 6: Checking for Profiles**

When the process is finished, you will see this screen.

**Step 7: “Forgetting” LCISD-Guest**

In settings, select “Wi-Fi”. Click on the blue arrow next to LCISD-Guest Access.

Select “Forget this Network” at the top of the screen, and Forget in the pop-up box. Then go back to the list of Wi-Fi networks.

**Step 8: Connecting to LCISD-iOs**

Finally, select “LCISD-iOs” from the list of networks available. You should now automatically connect whenever you are in the district.
