INTERACT Cheat Sheet

SMART Notebook

Extreme Collaboration
What is Extreme Collaboration

Extreme Collaboration is a SMART Board add-on that allows your students to connect to your SMART Board lessons. Students can use a mobile, web browser enabled device (smart phone, tablet, laptop, desktop computer, etc.) to send text messages directly into your SMART Notebook lesson. This is a great tool for collecting ideas, comments, feelings, feedback, answers, or thoughts throughout your lesson.

Downloading

1. Visit http://goo.gl/IFtrk to download
   a. There is a Windows, Mac, and Linux version
2. Run the installer after downloading

Creating an Extreme Collaboration Account
(optional, but required for creating classes)
